ELSEVIER

Reliability Engineering and Systems Safety **61** (1998) 253–254
Elsevier Science Limited
Printed in Northern Ireland

Contents of Volume 61

Numbers 1–2

1 Editorial: offshore safety
T. AVEN (Norway) & C. GUEDES SOARES (Portugal)

3 Expressing and interpreting the results of quantitative risk analysis. Review and discussion
T. AVEN (Norway) & K. PÖRN (Sweden)

11 A discussion of the acceptable risk problem
J. VATN (Norway)

21 On risk assessment in the petroleum activities on the Norwegian and UK continental shelves
T. AVEN (Norway) & R. PITBLADO (UK)

31 Offshore QRA and the ALARP principle
S. SCHOFIELD (UK)

39 Evaluation of methodology for QRA in offshore operations
J. E. VINNEM (Norway)

53 Stochastic modelling for the analysis of blowout risk in exploration drilling
L. B. ANDERSEN (Norway)

65 Recommendations on the use of expert judgment in safety and reliability engineering studies. Two offshore case studies
P. HOKSTAD, K. ØIEN & R. REINERTSEN (Norway)

77 Collection of offshore human error probability data
G. BASRA & B. KIRWAN (UK)

95 The contribution of human factors to accidents in the offshore oil industry
R. P. E. GORDON (UK)

109 Human and organization factors: engineering operating safety into offshore structures
R. G. BEA (USA)

127 Utilisation of principles from structural reliability in quantitative risk analysis: example from an offshore transport problem
T. NILSEN, O. T. GUDMESTAD, J. I. DALANE, W. K. RETTEDAL & T. AVEN (Norway)

139 Fire safety assessment and optimal design of passive fire protection for offshore structures
N. K. SHETTY (UK), C. GUEDES SOARES (Portugal), P. THOFT-CHRISTENSEN & F. M. JENSEN (Denmark)

151 Strongly directional currents in the calculation of structural reliability and response-based design conditions
L. VANDERSCHUREN, P. S. TROMANS & M. BLOEMSMA (The Netherlands)

159 Reliability modeling of surface controlled subsurface safety valves
M. RAUSAND & J. VATN (Norway)

167 Calendar

Number 3

169 Mathematical Foundations of event trees
I. A. PAPAZOGLOU (Greece)

185 Functional block diagrams and automated construction of event trees
I. A. PAPAZOGLOU (Greece)

215 The design of a highly reliable safety critical emergency shutdown system
G. DRAGFFY (UK)

229 Study for increasing micro-drill reliability by vibrating drilling
Y. ZHAOJUN, L. WEI, C. YANHONG & W. LIJIANG (P.R. China)

235 Dependability analysis of systems modeled by non-homogeneous Markov chains
A. PLATIS, N. LIMNIOS & M. LE DU (France)

251 Calendar

253 Contents of Volume 61
